ABOUT THE CONFERENCE:

The International Conference on Recent Advances in Manufacturing and Industrial Engineering (ICRAMIE 2027) aims to provide a premier platform for researchers, academicians, industry professionals, and policymakers to exchange knowledge and showcase cutting-edge developments in advanced manufacturing and industrial engineering.
The conference broadly covers emerging and interdisciplinary areas such as additive manufacturing and welding, advanced materials, and material design and characterization, highlighting recent innovations in processing, performance, and applications. Emphasis is also placed on smart manufacturing, Industry 4.0/5.0, and the integration of AI & machine learning for intelligent, data-driven production systems.

Key themes include advancements in industrial engineering, operations research, supply chain management, and quality engineering, addressing optimization, efficiency, and decision-making in modern manufacturing environments. The conference also explores product and industrial design, advanced machining and forming processes, and computational modeling and simulation, enabling improved product development and process innovation.
Further, the event focuses on robotics, automation, and mechatronics, along with applications in aerospace, automotive, defence, and biomedical manufacturing, reflecting the growing importance of high-performance and functional systems. Special attention is given to sustainable and green manufacturing practices, ensuring environmentally responsible and resource-efficient production.

Overall, ICRAMIE 2027 serves as a multidisciplinary forum to discuss emerging technologies, foster collaborations, and drive innovation toward the future of manufacturing and industrial engineering.

Who should attend?

We warmly welcome experts, scholars, and scientific & technical officers to participate in this international academic exchange activity in the fields of manufacturing, industrial engineering, Industry 4.0/5.0, AI & ML and its applications.

Venue:

National Institute of Technology Warangal Hanamkonda, Telangana-506004, India

Travel: By Air: Nearest Airport Rajiv Gandhi International Airport 168 km from NIT Warangal
By Train: Kazipet Railway Station 3.6km from NIT Warangal
Warangal Railway Station 10.3 km from NIT Warangal

NATIONAL INSTITUTE OF TECHNOLOGY WARANGAL, TELANGANA, INDIA

National Institute of Technology Warangal, established in 1959, is one of India's premier technical institutions. Spread over 250 acres, the Institute offers undergraduate, postgraduate, and doctoral programmes supported by modern laboratories, seminar halls, a central library, and residential facilities. The Manufacturing and Industrial Engineering group has expertise in advanced manufacturing, production and operations management, automation, sustainable manufacturing, and Industry 4.0. The group actively undertakes research, consultancy, training programmes, workshops, and industry-oriented projects.
